

WONDER GEL

MOISTURIZING FACIAL GEL WITH MICROSPHERES

The extraordinary research work carried out by **LR WONDER COMPANY** has led to **WONDER GEL**, a Moisturizing Facial gel with microspheres specially studied for skin that requires hydration and needs to be more elastic and luminous, fighting the external signs of time.

“ The most innovative feature of this moisturising gel are its microspheres. Once applied onto the skin, **the blue and red Jojoba microspheres will open and release the precious vitamin E they contain.** ”

WONDER GEL contains:

- **HYALURONIC ACID** (moisturizing);
- **PLANT STEM CELLS** (oak extract);
- **MARINE STEM CELLS** (seaweed extract, the latest achievement in cosmetics).

The gel should be applied daily. It is also a very good make-up base.

30 ML

DOES NOT CONTAIN PARABENS - DERMATOLOGICALLY TESTED.
